

SPOON CARVING

WITH LYNETTE BRETON

Creating beautiful wooden ware with one's own hands can be an intoxicating endeavor. With the use of hand tools to craft a useful kitchen utensil, this one day Saturday class will have you walking away with a completed project, ready to be used in your kitchen.

I teach four levels of spoon carving. These spoons are examples of each level starting from left to right – flat spatula, tasting/stirring spoon, deep serving spoon, and deep ladle. All levels build on skills that advance to the next level.

Class includes sharpened tools and materials.

Level 1 and 2 - \$100
Level 3 - \$125
Level 4 - \$135

The Saturday class is from 9:30 am to 5 pm. Class sign up allows me to contact you for future scheduling.
